DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 8, 11-18, 20-24, 36-40, 42-46, drawn to a method and system for facilitating the delivery of water to a plurality of cage level barrier-type cages.

Group II, claim(s) 47-50, drawn to a method for filling and preparing a plurality of fluid-filled bags.

Group III, claim(s) 51-54, drawn to a method for providing a plurality of cage level barrier-type cages and one or more sealed bags of fluids for use in the cages and a system comprising a plurality of cage level barrier-type cages and one or more bags of fluids for use in the cages.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups II, III lack the bag filling apparatus of Group I. Group II lacks the cage level barrier-type cages of Group III.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 3643

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
